

## Residents Symington House

### **MUGA area**

The removal of the MUGA area will begin next Monday 23 July. The digging up of the MUGA area, which will be very noisy, will begin the following day.

The contractor's vehicles will need access to the MUGA area to the left of the block (looking from Deverell Street. Therefore please do not park immediately next to the block on the left hand side. It is fine to continue parking on the same side as the Deverell Street fencing.

### **CCTV up-grade**

I'm sorry the up-grade has proceeded slower than I hoped. We are having to coordinate the CCTV supplier, an electrician, lift engineers and broadband providers. I hope that the up-graded system will be fully working by the end of July, but I'm dependent on four organisations outside of the direct control of the JMB.

Best wishes

Andy Bates  
JMB Manager
