

PROUD TO BE TAKING TENANT PARTICIPATION TO A NEW LEVEL

- Led by the residents of our 1,500 homes for the last two decades, we work to improve the quality of their homes, their environment and their lives.
- We were delighted to become the country's first self-financing Tenant Management Organisation last year- giving our residents total control over our finances and services- and securing changes in legislation so other resident groups can follow in our footsteps.
- We're now tackling the biggest issue many of our residents face by setting up Leathermarket CBS - a sister Community Benefit Society - to build new council-rent homes in our area.

***Congratulations to all nominated in the TPAS Awards
- everyone who works to improve the quality
of their homes and communities are winners to us!***
